## CUT BILL TO PASS HOUSE TODAY

20,000,000 Measure Almost Billion Over Limit; Further Slashes Asked.

By The Associated Press  
WASHINGTON, Oct. 29.—The 1946 first peacetime tax-cut bill was headed toward passage today, amid new demands for a slash in federal expenditures and for a balanced budget.

The size of the tax reduction—\$1,000,000,000 above the level set by the administration—has some members of the House getting balky. They acknowledged the bill's size.

What the "quickie" tax-cutting bill would do in 1946, or individuals:

- Reduce their payments \$2,000,000.
- Sweep 12,000,000 low-income taxpayers off the rolls completely.
- Assure 10 per cent of more for millions of other persons earning up to \$50,000 a year.
- Smaller cuts—down to 5 per cent in the highest bracket—for persons with incomes above \$50,000.

Set up special treatment for veterans of World War II by forcing enlisted men all federal income levies on their service pay during the war years and giving them a three-year time extension for paying their back taxes.

For corporations:

- Cut business levies by \$3,000,000.
- Repeat outright, effective January 1, the war-imposed 85.5 per cent excess profits tax; eliminate the cap on stock and the tapered value excess profits tax; remove four percentage points from the graduated normal and excess rates for firms with incomes up to \$50,000 and two points for those earning above \$50,000.
- No definite date is set for a cut in the high wartime excess rates on such things as liquor, furs, luggage, jewelry and cosmetics.
- But the legislation has one other provision.

Social security—The tax against employer's pay and employer's payroll is frozen at 1 per cent. With this "freeze" the tax would jump to 2.5 per cent against each January 1.

Automobiles—The \$3 a year use tax is repealed, effective next July 1, a saving of \$140,000,000 to automobile and truck owners.

Effective next January 1 the tax cut won't apply on this year's earnings but on next year's. It amounts to an increase in "take home pay" for millions of persons in wages and salaries. The pay-

## Wainwright Fulfills Terms of Surrender

(In today's article, including the 22nd and 23rd installments of "This Is My Story", Gen. Wainwright, begins the long, nerve-racking attempt to persuade his forces in the south to surrender.)

By GENERAL JONATHAN M. WAINWRIGHT  
(Copyright 1945, King Features Syndicate, Inc., Reproduction in whole or in part strictly prohibited.)  
Installment No. 22

THE Jap colonel who had me in tow, after my return to Corregidor from the fruitless meeting with Gen. Homma, grinned fiercely when I now told him I was ready finally to meet Homma's full and cruel demands.

He led me around Malinta Hill to its west side and down to a little settlement on Corregidor named Barrio San Jose. And there, in a destroyed Filipino market, I was presented to a stocky Jap colonel in charge of the invading forces.

From him I learned that a second large complement of Japs had landed at "Bottomside" during the afternoon. They were now in full command of the area between the west entrance to the Tunnel and Morrison Hill, farther west. They were blocking both ends of the Tunnel, our last possible hideout, and the Jap colonel in charge was even then in the midst of an order to his troops to attack "Topside", western extremity of Corregidor, where some of our men still stood by their destroyed weapons.

That was it. The last hope vanished from my mind.

Surrender Document Drawn

By feeble light we drew up a surrender document which followed the hard terms laid down by Homma. It was just midnight when I scrawled my signature across

## Death of LaRue's Only Doctor Ranks Him as Casualty of War

Tributes Paid 73-Year-Old Dr. Ruckman, Who Worked Day and Night in Area Formerly Served by 3 Physicians.

By JOHN R. ELLIOTT

When the nation prepares its last long casualty list for World War II, it should not forget the name of James M. Ruckman, physician.

That is the belief, in effect, of people in LaRue and vicinity where for two and a half years this man was the only doctor in miles and worked day and night to minister to their needs.

It was a job for two men surely — and there are some who will say that Dr. Ruckman did the work of three — the hardest years of his career coming after his allotted "three score and ten" had gone.

The doctor died last week at 73 and those who knew best of his work say that he died as all good soldiers do—"in line of duty". Funeral services and burial were conducted yesterday at LaRue. Attending was one of the largest assemblages ever present at a funeral service held in that community.

The cause of death was listed as a heart ailment, a condition which member of the family reports developed within recent years and was undoubtedly made fatal by the vast amount of work which

## Marion Soldier Can't Get Pay Until He Proves He's Alive

Tech. Sgt. Donald Ray Watts, 23, of near Marion, landed at San Francisco, Calif., Thursday to find that he couldn't draw his back pay, accumulated while he was held a Jap prisoner, until he proved that he was alive, according to a report from United Press correspondents who interviewed him after landing.

A long distance phone call received here by his parents, Mr. and Mrs. Carl D. Watts of the Smeltzer road, gave his mother and father the first personal contact with the young man since before he was ordered overseas in 1943. He was reported missing over Hengyang, China, July 26, 1944. On Sept. 8 of this year the parents received word that he had been liberated from a Japanese prison camp. A letter written on Okinawa was received about two weeks later and in that, Mrs. Watts stated that he "just picked up where he had left off in the last letter received 18 months before".

Self-Described Prisoner

The family learned that the war department had been notified that the soldier was alive and that the government was now in a position to pay him his back pay.

Mr. Watts said today that they had never been notified of his being declared dead, but he may have been as reported to his own company. Mr. and Mrs. Watts learned just a few days ago from Major Donald C. Watts, of the 1st Cavalry Division, that their son was still alive and that he was now in the United States.

## FIND BODIES OF WOMAN AND SON IN WYANDOT CO.

Discovered in Automobile Submerged in Quarry Pool at Marseilles.

Special to The Star  
MARSEILLES, O., Oct. 29.—Bodies of a Hardin county woman and her 12-year-old adopted son were found in their submerged automobile in a quarry pool near here this morning.

The victims were Mrs. Paul Hartle, 43, and Joseph Van Hartle, who live on the County line road between Marion and Hardin counties a short distance northwest of the Sally Ann tourist camp on route 30 west of Meeker.

The car was found in the pool this morning after Mr. Hartle, neighbors and sheriff's deputies of Hardin and Wyandot counties conducted an all-night search for the missing woman and boy.

The search started when Mrs. Hartle failed to return after presumably driving away from home to take Joseph to the nearby Milford Shuster home to spend some time with a playmate.

Daughter With Father

Mrs. Hartle's small daughter, Patricia Jane, was left with the father when Mrs. Hartle and the boy drove away.

It was reported at Marseilles that a note had been found at the Hartle residence. Contents of the note was not revealed but friends of the dead woman said it explained Mrs. Hartle and the boy were "going away." Friends also said that for some time Mrs. Hartle had been showing symptoms of nervousness and that she worried about her adopted son's progress in school.

Find Auto Tracks

First clues to their whereabouts were found about 8:30 a. m. this morning when searchers discovered automobile tracks leading into the quarry pool. The quarry is near the bridge on route 67 on the western edge of Marseilles.

In a short time the car was found submerged in 12 feet of water. The bodies were still in the car when it was pulled from the pool by a wrecker car from an Upper Sandusky garage.

Funeral Thursday

The bodies were taken to the Bringham Funeral home in Upper Sandusky. Double funeral services will be held Thursday afternoon. Rites will be at the home at 2 p. m. followed by services at the Marseilles Presbyterian church at 2:30.

## Open House Set At Harding High School Tonight

Tonight at 7:30, Harding High school will be open to parents and friends of the students of the school when "open house" will be held in observance of American Education Week.

Regular classes will be conducted by the students with an assembly included. Visitors will be free to visit any classes during the time they are there and may also attend the assembly. This "open house" is being held to acquaint the people of Marion with the way classes are conducted at Harding High school, those in charge say.

Registration for the visitors will be held from 7 to 7:30 p. m. and regular classes will then convene. Members of the student council will be in charge of the registration and ushering of the guests.

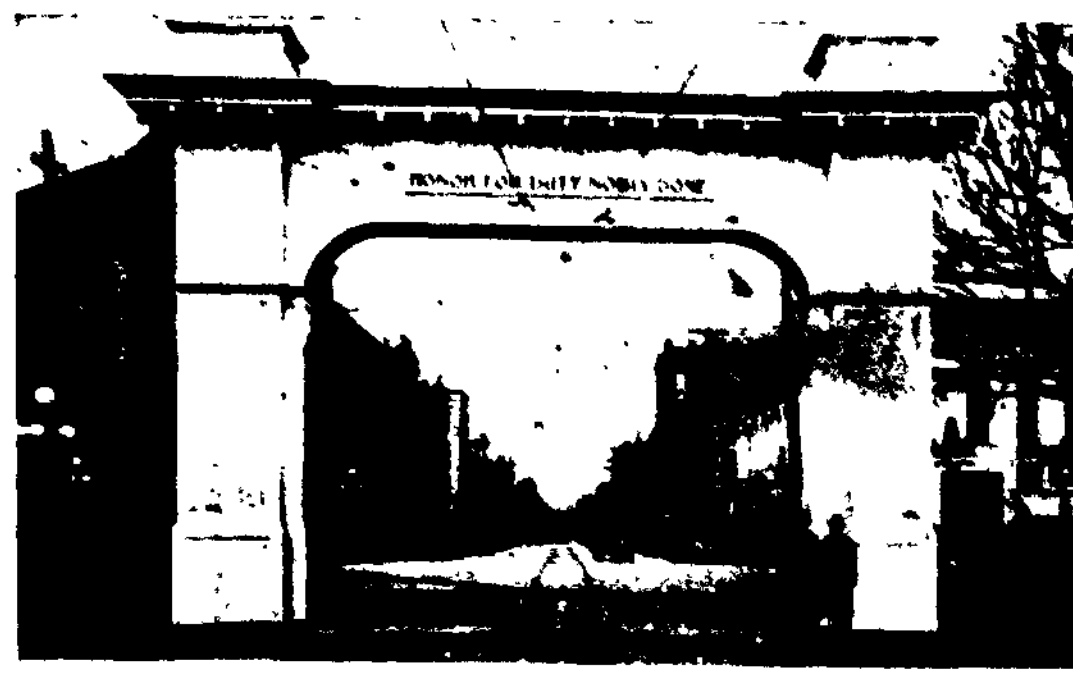

## TRANSPORTATION OF VOTERS PROVIDED

Aged and Ill Persons To Be Taken to Polls.

The Marion Civic Planning Commission, sponsoring the Jobs and Progress program, announced today that transportation would be provided to the polls for voters who are aged and ill persons who have difficulty in getting to their voting places.

Arrangements for this service will be made by the commission and will be available to all voters who are aged and ill.

## OHIOAN ADMITS LORAIN MURDER

Confesses Killing Sailor's Wife Just To Get Car; Pleads Innocent in Court.

By The Associated Press  
LORAIN, O., Oct. 29.—Gordon E. Wellman today pleaded innocent of first degree murder in the death of Mrs. Helen Duffield, 24, wife of a sailor in the Pacific, when he was arraigned today in Municipal court before Judge Malcolm E. Johnson.

An ex-convict, Wellman was bound over to Lorain county grand jury called in special session for Wednesday morning.

The 23-year-old steelworker, arrested in Columbus Saturday night, told detectives he shot and killed Mrs. Helen Duffield Wednesday night but maintained the first two bullets were fired "accidentally."

However, Detective Vernon Smith reported Wellman confessed firing two more bullets into her body when he found she was not dead.

Just Wanted Car

Smith said Wellman confessed he had intended to steal "any car available" to take another Lorain woman to Georgia and force her to marry him.

The detective reported the husky steelworker gave this version of the shooting:

Wellman was waiting outside a delicatessen-restaurant in Lorain when Mrs. Duffield, whom he had seen previously but never met, walked out to her automobile.

As the woman entered the car, he told her to "move over" and grabbed her keys. In an ensuing scuffle, his gun was discharged accidentally and the bullet struck the woman. He threw his gun into the car and again it discharged accidentally, wounding Mrs. Duffield again.

Wellman drove to a country road, pulled the woman out of the car and dumped her in a ditch. He went back to the automobile and tried to decide what to do. Hearing Mrs. Duffield moan, he straddled the ditch to avoid

## RULING FAVORS CITY IN SUIT OVER PAY

Judge Denies Bindley's Claim To Collect Withhold Wages.

A verdict for the city of Marion was handed down Saturday in the common pleas court action of Burdett Bindley, former city treasurer, to collect \$500 in wages lost through pay cuts in the depression years.

Bindley's attorney, Frank Winkelman and J. W. Jost, contended the city could not legally withhold the 10 per cent deduction in pay when the city was in a financial straits.

## TRUMAN POLICY FACING TESTS

Pressing International Problems Will Try President's 12-Point Program.

By The Associated Press  
WASHINGTON, Oct. 29.—Myriad international problems held a promise today of early and critical tests for President Truman's newly-proclaimed 12-point foreign policy.

However, Russia's demand for an Allied control council for Japan may be compromised in the near future.

The brightest spot diplomatic authorities see in the international situation is evidence of improving Russian-American relations. The optimism stems from the friendly reception accorded U. S. Ambassador Harriman when he delivered a personal message from Mr. Truman to Generalissimo Stalin last week.

The nature of the message and of Stalin's reply have not been disclosed.

However, the main purpose of the interchange was clearly to try to strengthen the basis for present and future cooperation among the great powers in trying to organize a secure world peace.

Among the international problems which President Truman and Secretary of State Byrnes must reckon with in the weeks immediately ahead and in the light of Mr. Truman's foreign policy declarations in New York Saturday are:

Japan—Representatives of the main victor nations in the Pacific war will meet tomorrow at the state department to organize a "Far Eastern Advisory Commission" primarily to consult on future Japanese control policies.

The Balkans—One of President Truman's dozen foreign policy principles is that this government will not recognize any other government imposed by outside forces on a nation. The United States has been critical of Russia's political policies particularly in Romania and Bulgaria.

Poland—This is a problem between Britain and the United States over admission of Jewish refugees from Russia to Poland. But it involves the "hot" question of maintaining peace and order in the Arab-dominated oil-rich, strategically vital east. Prime Minister Attlee is expected soon to make a public statement on the subject.

## WORKERS END UNAUTHORIZED AKRON STRIKE

San Francisco Dispute Hits West Coast; CIO Asks Steel Vote.

By The Associated Press  
AKRON, O., Oct. 29.—Members of Local 7 of the CIO-affiliated Auto Workers today voted to end a two-day walkout of some 600 maintenance and engineering employees of the Firestone Tire and Rubber Co. which halted production and made little more than 10,000 workers.

I. M. Watson, local union president, said negotiations on a wage increase sought by the workers would begin late today.

## NEW STRIKES IN AKRON, O.

San Francisco boosted the national total of persons not working because of labor disputes to the 350,000 mark today.

The figure compared with 238,000 a week ago and about 235,000 over the week end.

In addition, an expected cut in the national total of about 7,000 not materialized when disputants in the Hollywood movie strike delayed until Wednesday a back-to-work movement.

In Akron, O., an unauthorized walkout of 400 maintenance and power employees of the Firestone Tire & Rubber Co. halted production and kept 15,000 other workers off the job.

Thirteen thousand AFL and CIO machinists struck in 179 San Francisco and East Bay plants since dawn today. The walkout may affect from 6,000 to 80,000 workers.

Strike vote petitions to the National Labor Relations board were being prepared by representatives of more than 800,000 workers in the steel and electrical industries. And the AFL Commercial Telegraphers union planned a five hour work stoppage in the Western Union Co. Friday. Union spokesmen said 32,000 of Western Union's 60,000 operators would join the demonstration.

Issues, as in the principal other strikes, revolved about wage increases.

Strike votes and continued jockeying for position threatened further disturbances. The CIO United Electrical Radio and Machine Workers reported it planned to seek strike votes affecting 170,000 persons in 54 General Electric Corp. plants, and 30,000 in electric manufacturing plants of General Motors.

Issue likewise was a wage increase, this time for \$2 a day. A similar demand has been made by the UMRW in the Westinghouse Electrical Manufacturing Co. establishments.

Another strike vote petition was filed by CIO President Phil Murray, also over a \$2 a day increase, on behalf of 800,000 workers in 700 steel, aluminum, and iron ore plants. He asked the vote be held November 28.

Bethlehem Steel Co. announced today it had rejected the demand of the steelworkers for a 25 per cent increase of \$2 a day or 25 cents an hour.

The steel company announced it had rejected the demand.

Further increases in the already high wages of the company's steel plants could not be granted without substantial investment in new production facilities.

## Ohio's Eichelberger Rated As Least Bored General in Army

By HAL BOYLE  
Associated Press Writer  
YOKOHAMA, Oct. 28 — The man with the greatest sense of adventure in the American Eighth army is the boss. Tall, gray-haired Lt. Gen. Robert L. Eichelberger of Urbana, Ohio, at 59 still has a small boy's absorbing interest in the world around him. Despite service in two wars and much closehand observation of mankind's chicanery, selfishness and bloodlust, he remains unweary. And he has avoided those taint blights that afflict most chivalrous officers—boredom and introspection.

His finds it's just as fun to visit with his men as it is to lead them. He finds it's just as fun to visit with his men as it is to lead them. He finds it's just as fun to visit with his men as it is to lead them.

Any unit under his command, no matter how small, can expect periodic visits from Eichelberger—but not the usual cursory once-over inspections. His aides complain he "walks our legs off." If he thinks anything is wrong he goes directly to the men themselves and questions them. "Uncle Bob" shudders whenever anyone calls him "fatherly," but he has a way of making enlisted men forget rank differences and talk to him freely about their troubles.

He sees, too, that they don't pay for their trust in him and their frankness. Once, while he was questioning a soldier about a situation, he noticed the man's officer stiffening with resentment over his subordinate's remarks. Eichelberger's mild blue eyes chilled as he turned to the officer.

After I leave, I don't want you punishing this man for speaking out," he said.

**Take Care of Men**  
He is equally curt at all times in dressing down officers when he finds they haven't taken the best possible care of their troops. Eichelberger is kindly, like Gen. Omar Bradley, and he has Gen-

eral Patton's vitality without his brusqueness. During a recent trip with Eichelberger to inspect troops on Hokkaido, he passed over much of the country. The general had just after World War I, when he was intelligence officer in an American expedition to Siberia. Every few minutes he would beckon excitedly to some colonel or sergeant.

Look at that volcano! he would call "Look at that view!" Eichelberger is one of the Ground Force's most air-minded generals. During his Philippine campaign he made flying visits to front-line outfits on 72 of the 90 days it lasted, landing often before areas had been cleared of sugar.

No army wife can boast a more devoted husband than Mrs. Eichelberger, who lives in Asheville, N. C. They were married 34 years ago but he writes home daily—and gets one himself when the mail comes through.

Eichelberger has a simple formula for the perfect world. "Everybody," he says, "should have married parents."

**Juniors at Pleasant Will Present Play**  
"There Goes the Bride," a three-act farce, will be presented by the Junior class of the Pleasant Centralized school Wednesday night, Nov. 7, at 8:15 o'clock in the school auditorium.

The cast includes Naomi Rider, Maxine Hawk, Nettie Lou Dickson, Patricia Blank, Joan Baldauf, Virginia Zupan, Milan Gorby, Donald Hall, Bill Vance, Robert Withrow, Thomas Millner, and Charles Dawson. The play is being directed by Miss Esther Williamson of the school staff, assisted by E. E. Banning, superintendent, and assisting also in putting on the entertainment are Mabel Johnson, Marjorie Kreis, Joan Van Sickle, Vella Wolfe, James McCloskey, Gerald Blue, Donald Dutt and Richard Herr, members of the class.

Tickets are being sold by members of the Junior class and also may be obtained at the school the evening of the performance.

Cans are made of 98 per cent sheet steel for strength and 2 per cent tin to keep the steel from rusting.

This Man Is Among Nazi Chiefs Awaiting Trial for War Crimes.

FRANZ VON PAPPEN

By The Associated Press  
Lean, handsome Franz von Papen, 65-year-old diplomat, was expelled as ambassador to the United States in World War I for improper activities in military and naval matters. He helped engineer Austria into the Nazi orbit, taking Chancellor Schuschnigg to the "friendly" meeting with Hitler that paved the way for the Anschluss. Not only his glib diplomacy made him indispensable to Hitler when the heads of other noblemen were rolling; observers think he had something on der Fuehrer, possibly the forging of President Hindenburg's will, which helped Hitler into power. If not, observers say, why did Hitler decorate von Papen for the failure of his mission to insure Turkey's antagonism to the Allies in World War II?

LIGHT SELLING SHOWS REVIVAL

Labor News Gets Blame for Bearish Trend on Wall Street.

By The Associated Press  
NEW YORK, Oct. 28—Light selling of stocks, rails and motors interrupted the recovery swing of today's stock market.  
The persistently cloudy labor picture, as much as anything else, received the blame for a mild revival of bearishness. Numerous customers trimmed accounts or stood aside to await details of the congressional wage-price policy. The congressional agreement for quick tax relief, in addition to earnings, dividends and inflation ideas, served to restrict liquidation.  
Trends softened after an active and steady opening. Losses of fractions to a point predominated near the fourth hour.  
On the outside were U. S. Steel, Bethlehem, Santa Fe, N. Y. Central, Southern Pacific, Chrysler, General Motors, Western Union, "A. S. Sear's Roebuck, General Electric, Allied Chemical and Douglas Aircraft. Higher at intervals were Electric Power & Light, American Water Works, Anaconda, and Westinghouse.

WHEAT AID OTHER GRAINS AT CHICAGO

By The Associated Press  
CHICAGO, Oct. 28—Persistent strength in wheat futures, with prices up more than a cent a bushel at times, buoyed other grains today.  
Buying by commission houses and professionals, and an uptick in Kansas City strengthened wheat. Rye climbed to new seasonal peak at the start, then oats and rye weakened, but later steadied somewhat with wheat.  
The domestic visible wheat supply decreased 3,375,000 bushels last week to 134,245,000 bushels, the Board of Trade reported. Since many farmers are holding their wheat, apparently pending lower income taxes next year.

# LOVE'S FAIR HORIZON

**BY ADRIAN GARRISON**

"Yes, I have," I told Katharine. "I'll warrant they hadn't moved even a pawn in a half hour," Katharine said. "You are eminently correct," I told her smiling. "And when I had told her about the message in the library, and left him to his packing, he made a lightning job of it. When he came out again, he asked for Olga in most formal court fashion. If he might take Olga into the other room and say farewell to her there it was exactly as if he were asking permission for a formal betrothal. Olga hesitated, but gave the permission, and the two walked out together as if they were going to a solemn trial."

**Phil's Reaction**

"Well, I'll be—" my father began, then stopped abruptly. "What was Phil's reaction?" he asked. He exploded violently. "I said, 'But it didn't do him any good, for when Georges came back into the room, he was alone, and whispered something to Olga, evidently a request to leave Olga to herself for awhile. Then he bared them both good-bye hurriedly, and Philip played up, hiding his annoyance behind a show of cordiality. Then we came down here, stopping only when Georges gave me the photographs and the message for Mary.'"

**Protested Warmly**

"He protested warmly, voicing, among other things, the deathless cliché that he would rather have Mary's friend nip than the love of any other woman."

**Modest Maidens**

"If you don't get to that, pronto, I'm going to explode into fragments all over the rug," Katharine threatened.

**Gives Message**

"Stay in one place," I told her. "For here it is—or rather, they are. First," he said. "Tell her I have taken the last advice she gave me, and it has turned out miraculously. I shall thank her all my life for it."

**My father beat a quick tattoo with his fingers on the arm of his chair. Sure sign of annoyance. "It's high time he were taken away from here," he said. "But I don't know about letting him roam around the hideaway. Carolyn—"**

**"I think you can spare your worrying in that direction, Father," I said. "Carolyn's affections and capacity for being hurt are so triple-armed by her vanity, that she will be in no danger whatever from even so glamorous a being as Georges, especially as he's harmless in his philanthropy; vents his emotion mostly in melodramatic speeches, I imagine."**

**Katharine Questioned**

"Do you agree with Margaret's theory, Katharine?" my father asked judiciously.

"I most certainly do," my smiling kinswoman replied. "I think Georges and Carolyn will be very good for each other. Besides, her mother's there. She'll protect her daughter, if she has to flit with the fugitive king herself."

**My father laughed with me at the unconscious malice in Katharine's voice. But his mirth subsided quickly as he look at his watch.**

**"They'll be coming out presently," he said. "I trust I'll have time to outline something I want you to do for me as soon as I have taken Georges away with me."**

**Tumor**

One of the most common disturbances of women is the development of fibroid tumors of the womb. These tumors are made up of muscle tissue and fibrous connective tissue. The exact cause of these tumors is not definitely known. They may occur in persons who are as young as twenty, or in those past seventy.

# JAPAN STUDIES TRUMAN POLICY

Adviser Confers with Emperor After Speech; Press Aims Hirohito's Income.

By The Associated Press  
TOKYO, Oct. 28.—Unofficial Japanese took hope today from President Truman's enunciation of foreign policy that Japan eventually might regain a place in the economic and political society of nations, but not one government official would comment.

Murquies Koichi Kido, one of the emperor's closest advisers, spent the morning with Hirohito after reading Truman's speech. The Mikado, described as a diligent student of Japanese newspapers, presumably had read Truman's address, which was printed at length.

The newspaper Yomiuri Hochi reported Hirohito's annual income was approximately \$1,000,000 from stocks and extensive land holdings and that the imperial household's annual budget was approximately \$1,666,666. In its unprecedented discussion of imperial finances, Yomiuri said nearly one-fifth of the budget came from public funds over which the diet had no control.

Unofficial Japanese statements emphasized the hope Japan "will regain an honorable position in world society when we demonstrate our peace loving intent."

The President's reiteration of the Potsdam philosophy in this regard should be assurance that eventually there would be no discrimination against one-time enemy nations, they said.

Meanwhile, General MacArthur ousted Japanese officials from St. Paul's Episcopal university, directed the Japanese government to restore the Christian curriculum there immediately, and demanded an accounting of 81 other schools once supported by American gifts.

On the political front, Domei reported most young Japanese peers want to forsake their titles and assume a commoner status, following the lead of Prince Fumimaro Konoye, who is expected to become active in conservative politics if his request to resign his title is granted by the imperial household.

From Seoul came word that the first U. S. troops to be sent home from Korea left yesterday and that by Jan. 1 the distribution center at Incheon will have processed 19,000.

# ALL these Marion Organizations have ENDORSED the JOBS and PROGRESS PROGRAM

Never before have so many groups shown a  
willingness to Pull-Together on a Civic Project!

Why are they doing it now?

Because all of them realize that "Jobs and Prog-  
ress" will directly benefit every Section and Income  
Group of the city — — — Will help make Marion a  
better place in which to live.
